CANINE COGNITIVE DYSFUNCTION (CCD): Opportunities for Translational Veterinary Medicine

Learn about a new and exciting research project to assess CCD incidence and need for interventions in the Interior.

SPEAKERS:

Judy Kelleher-Andersson, PhD
President and CEO, NeuroNascent Inc.
Greg Pietsch, DVM
Assistant Professor of Vet Med, UAF

WHO is invited:

Local Veterinarians with dog-owner clientele

Invitation to meet veterinary medicine and biomedical researchers to learn about CCD in our community and discuss how local veterinarians can become involved in assessing incidence of CCD and efficacy of potential CCD treatments in aged dogs.

We need your help with this project!
